

Your building's old devices can work for all of you.

আমাদের পাড়া, আমাদের যন্ত্র

What a building can do together

Backups kept safe by your neighbours, in pieces they can't read	spare disks
Lobby screens instead of posters on the walls, with local ads paying the building fund	old monitors, TVs
A tablet at the gate instead of the paper register	old tablet, phones
"Current's back" alerts on the building's WhatsApp	old phones
Idle laptops that earn towards the service charge	laptops, desktops
Phones passed on, wiped, to students and guards	phones, tablets

We collect, wipe, rebuild and look after everything. Free visit for building committees during our Dhaka pilot. Building plan from Tk 2,500 a month, paid by bKash or Nagad.
